

THE SHOWER LAB

SLIDING SHOWER SPACES

Buyers Guide

Design your small bathroom, optimise on space and discover style with our guide into sliding shower spaces

WELCOME

from The Shower Lab

Borne from a passion for bringing well-crafted and versatile shower spaces to our customers, The Shower Lab is dedicated to innovation, style and practicality. Sliding shower spaces offer these three things in abundance and provide benefits to bathrooms of all sizes. Our Buyers Guide will be your helping hand, allowing you to discover these beautiful shower enclosures and identify the right one for your home.

To enquire about any of our sliding shower spaces, please email info@theshowerlab.com or find your local showroom at www.theshowerlab.com/#store-finder

VERSATILE STYLE

Ideal for small bathrooms

For rooms limited on floor space, sliding shower enclosures work perfectly. The sliding door panel rolls behind the fixed panel, without the need for additional, free floor space.

So, no matter the space, they can be customised to suit.

ACCESSIBILITY

Glide for easy access

Due to the rolling design, sliding shower spaces are ideal for accessibility. In comparison to hinged shower doors, sliding shower doors typically provide the widest entry point.

For those less able, small children or busy households, open accessibility allows you to shower with more ease.

HANDLES

When paired with a sleek handle, sliding shower spaces bring undeniable style into your home.

WATERPROOF

Sealed to minimise splash-back

Sliding shower spaces have a waterproof design, much like the other enclosures in our portfolio. Seals are used throughout the design to minimise splash-back while still allowing you to achieve a minimalistic, modern look.

Expert tip

Direct shower heads and water flow away from the enclosure at all times.
